

**FEB 2026-
JUN 2026**

EMME Childcare Connection Program

The Child Care Connection Program allows the opportunity for centers to receive individualized assessment and interventions to support children who are having difficulty participating in their natural environment.

Caregivers, childcare centers, or EI providers can apply for their child to participate in the program. Once in the program, the center, caregiver, current team, and EMME team will sign an agreement to participate in the plan. These services will NOT cause a reduction in any current services in place.

Each child will receive 11 visits from the team in the program:

Visit 1: Intake with caregiver, center director and/or classroom teacher

Visit 2: Assessment with AEPS-3

Visit 3: Assessment Recap & Plan Development

Visits 4-9: Intervention Week 1-6

Visit 10: Summary, Final Recommendations

Visit 11: Lingering questions, pop up concerns, resources

**RSVP
